Together we Rise and Let us Defeat it

Communities have the power to lift up  
What has been broken down by Breast Cancer

When we **RISE** together, we ensure  
Everyone facing Breast Cancer is cared for and  
Supported: Morally, Ethically and Financially

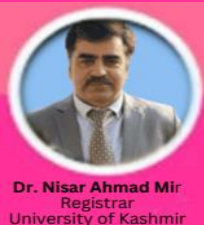

Let us be  
together

For many people, a breast cancer diagnosis  
can feel like a battle they're facing alone.

But we are in this **together**.

Because they're Our **Mothers**. Our **Sisters**.  
Our **Friends**. Our **Daughters**. Our **Queens**
